ABOUT

Detailed-oriented BICT undergraduate with a strong foundation in UI/UX design, usability principles, and user-centered design methodologies. Skilled in wireframing, prototyping, and interface design using tools such as Figma. Seeking a UI/UX design internship to apply academic knowledge, enhance design skills, and contribute to creating intuitive, accessible, and visually engaging digital products. Passionate about user research, interaction design, and continuous learning within the software development lifecycle.

EDUCATION

- Bachelor of Information and Communication Technology (BICT)** 2022 - Present
University of Jaffna (Vavuniya Campus), Sri Lanka CGPA 3.90/4.00
- G.C.E Advance Level - T/St.Mary's College - 2020**

TECHNICAL SKILLS

- Design Tools:** Figma, Adobe XD, Canva
- Manual Testing:** SDLC, STLC
- Programming Languages:** Java, HTML, CSS, PHP, C#, JavaScript, React
- Project Management Tools:** Jira, Trello

SOFT SKILLS

- Strong eye for detail, ensuring visual consistency and functional quality
- Analytical mindset with the ability to evaluate user flows and system behavior
- Effective communicator for sharing design feedback and collaborating with teams
- Fast learner with the ability to manage tasks and deadlines efficiently
- Comfortable working in iterative and fast-moving development environments

PROJECTS

Food Ordering Website (PHP, MySQL, HTML, CSS, JavaScript)

Developed a dynamic e-commerce platform using PHP and MySQL, featuring product listings, cart, checkout workflow, and user authentication. Implemented an admin dashboard to manage products, orders, and users efficiently. [[Link ↗](#)]

Inventory Management System (C#, .NET Framework, SQL Server)

Developed a C# .NET Windows Forms desktop application for managing products using SQL Server. Implemented multiple forms with CRUD functionality and database connectivity in Visual Studio. [[Link ↗](#)]

Personal Portfolio (HTML, CSS, JavaScript, Responsive Web Design)

Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript. Implemented smooth animations, interactive navigation, and client-side form validation for improved user experience. [[Link ↗](#)]

Jewellery Website (Figma, Prototyping, Basic Design Principles)

Designing a jewellery website interface in Figma with emphasis on user experience, product presentation, and clean navigation. High-fidelity mockups and design flows are under development. [[Link ↗](#)]
